

SOLUTION IT, INC.

Solution IT, Inc. is a full-service Information Technology (IT) consulting firm, managed by highly-skilled professionals with over 35 years of IT project delivery and strategic staffing experience. An established team with in-depth technology knowledge, superior business and industry understanding and on-site and remote capabilities, Solution IT has the flexibility, adaptability and product expertise to help your business succeed.

FOR TODAY'S MARKETPLACE.

In today's rapidly evolving business environment, successful organizations need a strong information technology foundation. As your company and customer demands grow, you require creative, flexible and scalable technology solutions that maximize every dollar you spend. We are committed to delivering efficient and cost-effective solutions that enhance customer productivity and profitability.

At Solution IT we understand that technology can only deliver strategic value when it fits your unique business needs. If the technology, applications and support systems are not sound and cost-effective your business suffers. That's why we provide customized support and service aligned with each of our unique customers. Our experience allows us to tackle the toughest challenges your business faces—while keeping a firm eye on your bottom line.

Local Support. Global Reach.

Some projects require an on-site solution—skilled experts working with your IT staff and end users. Often though, the most cost-effective approach is a blended team of on-site and remote resources. That's Solution IT's global advantage.

Consulting Services

- ERP – SAP, Oracle E-business and Peoplesoft.

2 Weeks

Time needed to deploy a global team of 35 consultants, delivering results quickly.

Over 4,000 Hrs.

Development time we saved a client—
minimizing maintenance costs and
maximizing ROI.

What we do.

People

One IT consultant or thirty. A short-term project or a year-long assignment. ERP or BI. Microsoft or Java. CRM or custom applications and Infrastructure. No matter what your project needs are, Solution IT has the resourcing expertise to identify the right talent and the local and global capabilities to deliver.

Consulting

New Implementations. Roll-outs. Enhancements/New Functionality. Production Support/Maintenance. Upgrades. Solution IT has the ERP and BI product knowledge, project experience, and skilled talent to assist at any level or any stage of your project life cycle.

Managed Services

(On-Site/Off-site/Offshore)

Through our offshore service offerings, Solution IT provides our clients with ERP consulting services customized to suit client specific requirements. Whether it's application development, database administration or support with a growing list of enhancements, we work with you to find the right solution to meet your needs, objectives and budget.
